TIMELOCK Eisenhower-Matrix

	Urgent	Not Urgent
Important	Do - 1. Create capsules with a title and a personal message. 2. Save capsules so that they remain available after closing the application. 3. Let users choose an unlock date and keep the capsule locked until that date. 4. Allow users to open capsules once they unlock. 5. Display all capsules in a dashboard with their locked or unlocked status.	Schedule - 1. Allow users to attach photos to capsules. 2. Add search and filtering for older capsules. 3. Send email reminders when capsules become available. 4. Allow users to customize capsule appearances.
Not important	Delegate - 1. Use an existing date-picker library instead of building a calendar from scratch. 2. Use an image-uploading library if photo attachments are added. 3. Use an existing UI library for visual effects and animations.	Delete - 1. Allow users to share capsules publicly. 2. Build a social feed. 3. Add multiple elaborate themes. 4. Create a complicated multi-user profile system for the initial version.
